*the power
of elements*

UNTAMED, BEAUTIFUL,
CAPTIVATING WITH THEIR
POWER...

*... and essential for life – such are the four elements.
Being fascinated with them we created a unique limited
series of products –*

*the TT FM COLLECTION – on the occasion of the
FM GROUP brand 10th anniversary. We believe that the
perfect unity of the elements can become a symbol
of the extraordinary harmony of the body and senses,
a harmony you will discover through our unique
collection. We have created luxury cosmetics and
fragrances by selecting the most fashionable colours
and innovative formulas, signing them with our name.

earth

**FULL OF WEALTH
AND INSPIRING CLOURS**

We are fascinated by the beauty of nature and the wealth of the Earth. Therefore, we took from its interior what is most precious, and created innovative formulas of our makeup cosmetics. They contain illuminating diamond powder, silky kaolin, volcanic ash and many other valuable ingredients. We have also used the power of natural plant oils which add radiance to your skin. It is a perfect combination of advanced lab technology with nature. The toned colours, in turn, inspired by the shades of earth, perfectly highlight feminine beauty with an elegant, natural make up.

The element of earth is also a patron of beautiful fragrances created by Alexandra Monet. One of the main creators of scent compositions at drom fragrances® designed unique fragrances, inspired by leather and wood especially for Katarzyna and Artur Trawinski.

PERFUME FOR HER

PARFUM

In the heart of the fragrance there bloom a Turkish rose, freesia and orange blossom, whereas the precious saffron, leather and sensual musk add to the fascinating depth of the scent. Together they form a unique whole, in which oriental notes intertwine with flowers. This extraordinary fragrant signature stays in memory after a meeting with an exceptional woman.

delightfully sensual

The ornament master's precision is reflected in each TT perfume bottle. Each glass flask has been hand-wrapped with natural leather, decorated with a burned logo and finally laced with coated thread to create a whole resembling a women's corset. Mastery in its pure form.

TT

PERFUME FOR HIM

PARFUM

A sophisticated composition of wood notes, where you can find the freshness of bergamot, spicy accents of black pepper and nutmeg, as well as velvety fragrance of monoi and vetiver oils. It embodies power, strength and a sense of freedom.

unique in every detail

The original perfume for him bottle housings have been hand-made, which makes each piece as unrepeatable as each piece of beach wood grain, of which the housing has been made.

Alexandra Monet, one of the main creators of drom fragrances®, the author of the TT FM COLLECTION perfume; an artist and fragrance expert, for years has been creating the unforgettable compositions from a palette of more than 3,000 captivating scents

I created the women's perfume being inspired by one remarkable woman who is generous, delicate and elegant. Her natural beauty is emphasised by the oriental, exclusive smell of the Turkish rose, which perfectly matches the scent of the world's most expensive spice – saffron. Along with the notes of wood and leather, they create a synonym of absolute femininity.

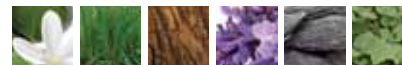

The exclusive fragrance for him, in turn, perfectly reflects the FM GROUP owner's charisma, his openness, love for travel and need for freedom. This composition was created around monoi, notes of wood, ambergris, flowers and powder. It brings out the true manhood, which no one dares to oppose.

water

GIVES POWER,
VITALITY, HYDRATION

The strength and crystal clearness of water in every drop of the cosmetic product – this is the recipe for vitality, youth and radiant looking skin.

Inspired by the extraordinary properties of this element, we have developed two unique products.

The power of the active ingredients contained in the face cream effectively nourishes the skin, providing it with the necessary hydration, whereas the concentrated serum formula helps maintain pristine appearance of the skin, improves its elasticity and reduces signs of fatigue. Immerse yourself in the ocean of beauty...

T FACE CREAM

FACE CREAM

3D technology in the service of the beauty of your skin. The innovative two-phase cosmetic product combines the wealth of active ingredients with the moisturising strength of the gel cream, which blend in each perfectly selected dose. Marine collagen and hyaluronic acid operation synergy with caffeine and ginseng extract provides intensive care and helps maintain radiant complexion.

Katarzyna Trawińska, FM GROUP owner

There is nothing better for my skin! Using the two-phase cream daily, I provide it with long-term hydration, my complexion becomes smooth, soft, it is radiant and glowing. The TT cosmetic products add invaluable vitality to my skin – I energetically welcome each new day.

what is most important:

- takes care of skin in need of intense moisturising, endangered with the loss of firmness and elasticity <
- for everyday use in the morning and evening <
- double effect when used together with the Serum <

T FACE SERUM

FACE SERUM

The concentrated formula of the product, inspired by the wealth of the deep sea, quenches the skin's thirst by ensuring its optimum, long-lasting hydration. The complementary interaction of collagen, hyaluronic acid and natural grape oil stimulates regeneration of the epidermis, improves and normalises the level of hydration, restoring a healthy glow and radiant look to your skin.

what is most important:

- rich in collagen and hyaluronic acid, which are the skin's natural building blocks - the content of these substances decreases after 20 years of age, contributing to the loss of firmness and elasticity <
- recommended for skin in need of hydration and vitality <
- for use at night two times a week <
- a pipette will let you apply an ideal dose for your skin <
